If signed copy is not received by photographer prior to job commencement and said job commences, the above and below terms and conditions will be deemed accepted by client.

1. This is an estimate, not a bid, to provide photographic services and other items necessary to produce photography for the client and the proposed use stated on the front of this form. It's good for the next 30 days and then subject to reconsideration.

2. The estimate for fees and expenses are based on your original layouts, information and job descriptions, and reproduction rights. If estimated expenses exceed \$300 photographer reserves the right to request advance payment to cover those estimated expenses. If photographer pays expenses upfront, client will be billed for actual expenses plus a reasonable markup of up to 100% and these charges will be reflected on the invoice.

3. Should there be weather delays on the assignment, my fee for such days will be \$800 for each day plus all expenses incurred including crew and model expenses. Any additional production days required to complete the assignment will be invoiced at \$1,500 per day plus all expenses incurred including crew and model expenses and airfares and travel expenses to complete assignment.

4. We understand budgets, approvals, and changes in creative requirements. Please inform us if there will be any changes, additions, or variations in your requirements, as they may affect the project cost. The client for whom this work is ultimately made is also ultimately responsible for payment of fees and expenses incurred by the photographer in this project. During the execution of the photo assignment, any requests made by the client or clients representative to alter, add, or change the original job requirements will result in additional costs of time and material and will appear on final invoice.

5. If you wish to accept our estimate and tie us into a firm quote for the service/fee portion of this estimate, do so by signing the estimate and returning to photographer. Such an agreement is the place to cover cancellations, postponements, re-shoots, and other related items that may affect the project.

6. Your rights are stated on both the estimate and the invoice and are granted upon payment. Nonpayment is an infringement of our copyright. We own the copyright to these images unless otherwise stated in writing. You are expected to provide copyright protection for us, at no charge, for each use.

7. Client accepts full liability for all uses and indemnifies the photographer against all claims for any improper, illegal, or outrageous abuses. Photographer maintains the right to use these photos in our promotions and marketing efforts.

8. Timely payment is paramount. Grant of rights to use images is not given until final invoice has been paid.
